

EcoSeries

**3DTECH**

**HIGH PERFORMANCE COTTON BLEND**

- **3DTECH** adds 8 to 10% fabric stretch for superior wearer comfort and mobility
- **3DTECH** provides moisture management that repels water based and many other liquid spills from being absorbed into the outside fabric while the inside surface wicks moisture in the form of perspiration providing a more breathable and comfortably dry garment
- **3DTECH** includes **COLORSTAY** dyeing technology for superior color retention and enhanced soil release, both adding to garment longevity
